Unanimously approved.

### Financial Report

1. Denise reported on expenditures to date and provided a spreadsheet. \$21,814.55 of the \$56,000 budget for FY16 has been expended, including \$574 for video equipment.
2. Jamie Fosburg explained that unexpended funds at the end of the fiscal year can be rolled over into the next year. In fact, he suggested that it would be a good idea to plan to have some funds left over in case there is a delay in approving the federal budget for the next fiscal year.

### New Business

1. Definition of Wild, Scenic and Recreation categories for river designation was tabled until next meeting when Jamie Fosburg would be available to answer questions.
2. Adding Water Quality to the study - Joe MacAndrews had suggested that if we needed to expend funds before the end of the fiscal year we could use them to supplement the water quality monitoring budget for WPWA. However, because funds can be rolled over into the next fiscal budget this was decided to be unnecessary.
3. Replacement of vice chair will be voted on at the next meeting.
4. Denise will send another letter to the Exeter Town Council to assign a committee member to represent their town. She will also send out a press release about the study committee looking for more members from specific towns.
5. River maps – WPWA is would like to create 4 maps of the Pawcatuck River that show paddle routes and have information about the Wild and Scenic Study. These maps would be available on-line and could be printed and distributed at events to promote Wild and Scenic.  
Motion made and seconded to approve using no more than \$2000 to create the 4 on line maps. Motion passed unanimously.
6. Added item: Fred Wagner asked if the author of a book, the Pawcatuck River Navy, who is a member of the Westerly Historical Society, could be asked to come and speak to the committee. It was decided that at this point we will have had enough historical speakers. The suggestion was made that he could be asked to serve on the Cultural subcommittee. Compensation would not be discussed.
